1.0 PURPOSE
The City of Toronto is seeking proposals from non-profit organizations to renovate and improve existing transitional and/or supportive housing. Up to $500,000 is available as capital grants by way of forgivable loans from the federal Homelessness Partnering Strategy (HPS). A maximum of $75,000 is available for any one proposal. There is a limit of one proposal per Organization. This is the second of annual proposal calls that will be issued over the next four years.

Organizations should be aware that they must agree to absorb any cost above the requested amount necessary to complete the project. In addition, they should be prepared to assume any ongoing operational and maintenance cost related to the project following its completion.

Proposals selected for funding will support recommendations in Toronto’s 10-year Affordable Housing Action Plan – Housing Opportunities Toronto (HOT) and the City of Toronto’s Housing First approach.

Examples of the types of projects (hereafter referred to as the “Project”) for which funding assistance is available for renovation of existing buildings, including:

- health and safety of residents and staff
- repair and/or conversion of under-utilized or non-functional space
- improvement of physical accessibility
- security systems
- improvements that increase the durability of the building, which result in reduced maintenance and provide a prolonged building life.

The Homelessness Partnering Strategy (HPS) is a federal program that provides resources to communities across Canada to address and alleviate homelessness. The City of Toronto is responsible for delivering and administering HPS funding as approved by Council in November 2013, and subsequently approved by the federal government. The City of Toronto has outlined a series of objectives that serve as the framework for the administration of the HPS program in Toronto. This RFP addresses the objective of Preserving or Increasing the Capacity of Facilities Used to Address the Needs of People Who Are Homeless or at Risk of Homelessness by maintaining and improving the physical infrastructure of community facilities to enhance service delivery.

This RFP also addresses the strategic directions in the Shelter, Support and Housing Administration 2014-2019 Housing Stability Service Planning Framework. Renovations and Improvements to transitional and supportive housing improves the housing stability of people who have experienced homelessness by upgrading and extending the life span of their housing.
