Jellicoe Avenue Sanitary Sewer Replacement

In May 2015, the city advised you of planned sanitary sewer replacement work on Jellicoe Avenue from Foch Avenue to Browns Line in a Pre-Construction Notice.

Due to a re-prioritization of projects, this work is deferred until further notice.

This delay in scheduled work will not affect the normal operation of the existing sewer.

Map of Work Area

The City will provide a further update before this project work starts again. Thank you for your continued patience and understanding.
