## Road Reconstruction on New Street from Davenport Road to West End

**Expected Start Date: October 17, 2016**

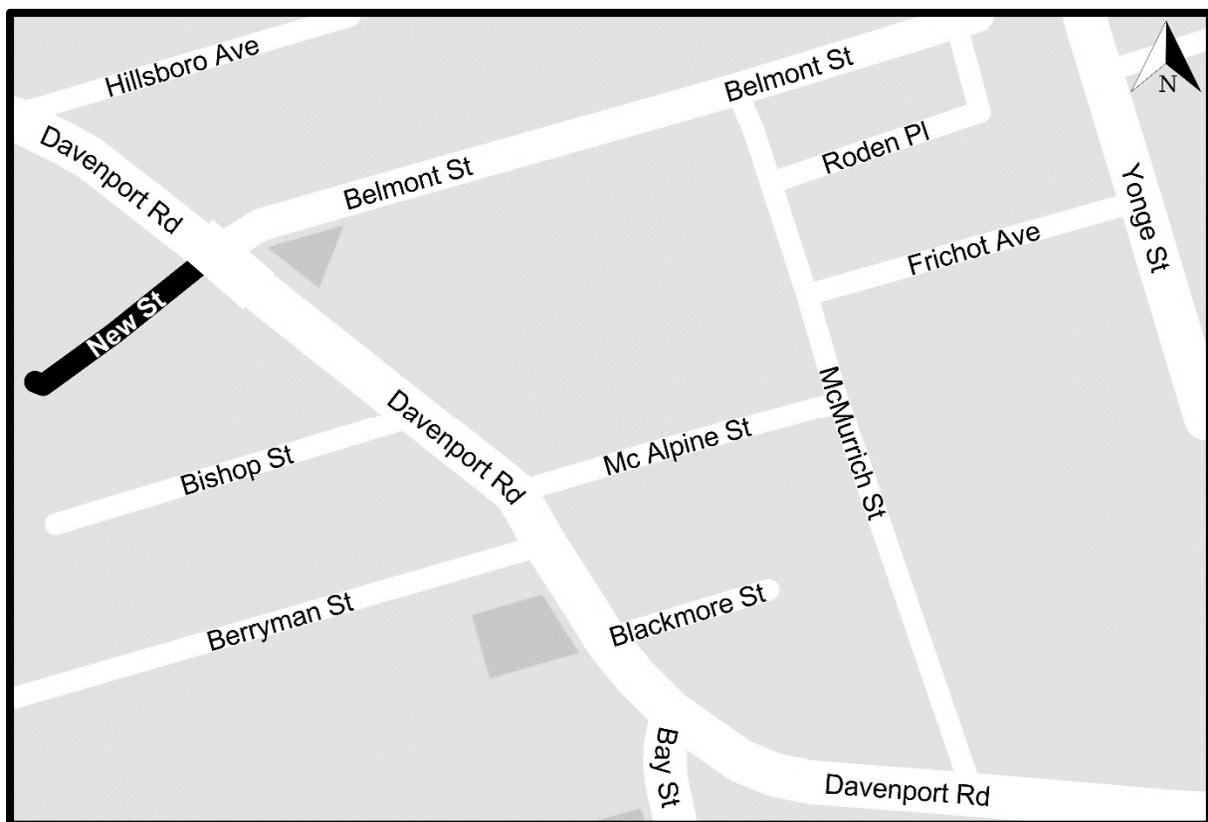

**Expected End Date: November 8, 2016**

*\*Timeline is subject to change.*

The City of Toronto will reconstruct New Street from Davenport Road to the West End (62m). Our inspection of the road showed that it needs reconstruction and sections of damaged curb and sidewalk will be replaced to bring them to a state of good repair.

This project is part of the Council-approved 2016 Capital Works Program to renew aging city roads for current and future needs.

### MAP OF WORK AREA

### WORK DETAILS

The City's contractor will move equipment on-site and prepare the work area before construction begins. Construction crews will then:

- Remove the existing asphalt and granular base and replace with new granular base, concrete and asphalt.
  - Remove and replace concrete sidewalk where required.
  - Remove and replace concrete curb and gutter where required.
- Restore areas affected by construction.

### WHAT TO EXPECT DURING CONSTRUCTION

- You will experience dust, noise and other inconveniences. The City will make efforts to reduce impacts. Your patience is appreciated.
- Property owners should remove items located within City property limits (boulevard or front yard), such as landscaping and / or decorative objects.
- The City will not be responsible for damage to any privately owned items on City property.

**Work Hours:** Work will take place from 7:00 a.m. to 7:00 p.m., Monday to Friday, with work after hours and on weekends as required.

	<p><b>Road and Sidewalk Access:</b> In order to complete the work in a safe manner, there will be road and sidewalk restrictions within the construction work zone. Access for emergency vehicles will be maintained at all times.</p> <p><b>Driveway Access:</b> The contractor will notify you of any temporary restrictions to your driveway access. If your property has two entrances, one entrance will be kept open at all times.</p>
	<p><b>Traffic Management:</b> Efforts have been made to manage traffic in the area for the safety of workers, road users and residents. Road users should expect delays.</p>
	<p><b>Parking:</b> Parking in the active work zone is not permitted due to space requirements for construction equipment and materials. If your parked vehicle affects the construction work, it will be re-located with no charge to the owner. If your vehicle is moved, please contact parking control for its location at 416-808-2222.</p> <p><b>Temporary Parking Permits:</b> If the active work zone blocks your garage or the location of your primary resident parking, the City will attempt to provide a temporary parking permit. This permit will be delivered to you based on availability. In the event that a permit is not issued, please arrange for an alternative parking location or follow the directions below.</p>
	<p><b>Garbage &amp; Recycling:</b> Please follow your normal routine. If required, the contractor will move bins to an appropriate location and return them. Please ensure that you label your bins with your address.</p>
	<p><b>Restoration:</b> The construction work area will be restored with sod and/or asphalt where required. Interlocking bricks, flagstone on a granular base, or other similar features that are removed from public and private property during construction will be replaced. Lawn seeding and/or laying of sod will be done as needed during ideal growing seasons only - in the spring (April to June) and fall (September to October).</p>
	<p><b>Accessible Accommodation:</b> Residents who require accommodation (level entry, longer notice, etc.) must contact the Field Ambassador to arrange for access during the construction period.</p>
