Combined Sewer Replacement on Oak Park Avenue from Cosburn Avenue to Danforth Avenue.

Contract: 15ECS-LU-14SU
Start Date: November 6, 2015
End Date: June 2016

**Timeline is subject to change. Future notice to be provided.*

The City is replacing the combined sewer along Oak Park Avenue from 70 metres north of Danforth Avenue to 75 metres south of Everett Crescent and resurfacing the road from Cosburn Avenue to Danforth Avenue.

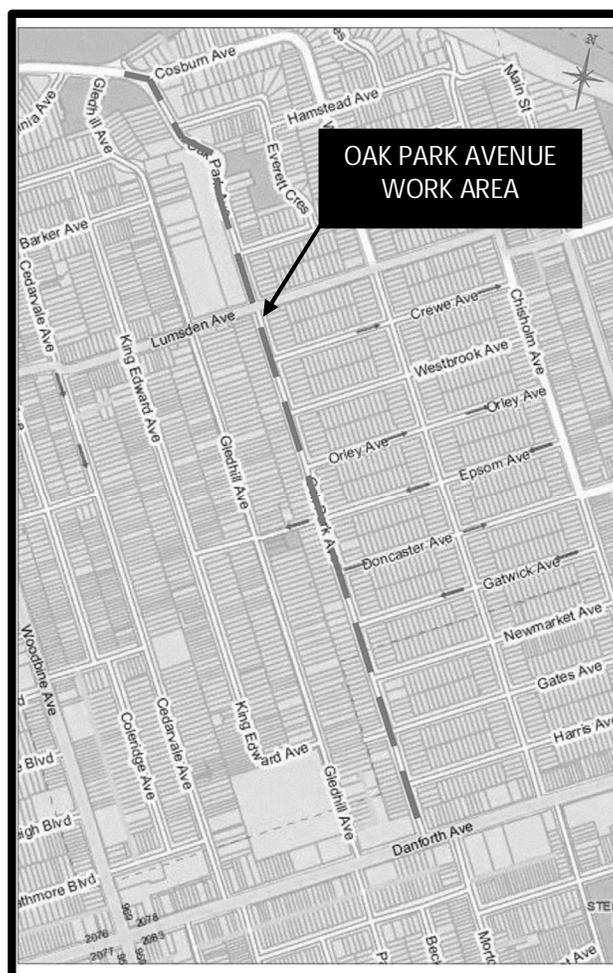

The sanitary service lateral is the pipe connecting your home's plumbing to the City's sewer, the water service underground pipe brings water to your water meter; both of these pipes are owned by you and by the City. The part that you own is from your house to the end of your property, the part the City owns goes from the sewer and watermain to your property line.

This project is part of the Council-approved 2015 Capital Works Program to improve water distribution, renew aging infrastructure reducing the risk of sewer collapse or blockages that cause sewer backups and rehabilitate and upgrade our roads for current and future needs.

IMPORTANT INFORMATION ABOUT LEAD WATER SERVICES

If you live in a house that was built before the mid-1950s, your water service may be made of lead. Please read the attached fact sheet with important information about the risks of lead in drinking water, especially if someone in your house is pregnant, there are children under six years old, or there is an infant drinking formula made from tap water.

MAP OF WORK AREA

WORK DETAILS

In the first few weeks, the City's contractor will move equipment on-site and prepare the work area before construction begins. Construction crews will then:

- Excavate the road and dig a trench to access and install the new sewer
- Replace any City-owned water service pipes that do not meet City standards from the water main to the private property line
- Improve the Intersection of Cosburn Avenue and Oak Park Avenue
- Repave the road from Cosburn Avenue to Danforth Avenue
- Restore all work areas with asphalt, concrete or grass when the underground works are complete

WHAT TO EXPECT DURING CONSTRUCTION

- You may experience dust, noise and other inconveniences. The City will make efforts to reduce the impacts. Your patience is appreciated.
- Property owners should remove items located within City property limits (boulevard), such as landscaping and / or decorative objects. If you have a sprinkler system within the boulevard, please contact the Field Ambassador. The City will not be responsible for damage to any privately owned items on City property.

	<p>Work Hours: Work will take place from 7:00 am to 7:00 pm., Monday to Friday, with work after hours and on weekends as required.</p>								
	<p>Water Service Disruptions: From time-to-time, the water supply to your property will be shut-off to complete construction; the contractor will provide at least 24-hour advance notice. Throughout the work, it is recommended that you temporarily disconnect any water treatment systems (i.e. softeners or filters), water-cooled air conditioners or similar plumbing fixtures. Automatic lawn sprinkler systems may also be affected, therefore, you may need to water manually. In the event you did not receive advanced notice, an emergency water shut off could have been necessary.</p>								
	<p>Substandard Water Service Replacement: Please take the time to read the attached fact sheet carefully as it contains important information on lead in drinking water and how to prepare for replacement. If you want to replace your part of the water service pipe, contact the City's contractor for one of your quotes.</p> <p>Water Service Replacement Contractor:</p> <table data-bbox="331 1580 1333 1728"> <tr> <td>Company/Contractor:</td> <td>Pachino Construction Co. Ltd.</td> </tr> <tr> <td>Contact Person:</td> <td>Carlo Luberto</td> </tr> <tr> <td>Phone:</td> <td>416-528-9377</td> </tr> <tr> <td>Contract No.:</td> <td>15ECS-LU-14SU</td> </tr> </table> <p>PLEASE NOTE: (any contract entered into to replace water services is between the home owner and the contractor.)</p>	Company/Contractor:	Pachino Construction Co. Ltd.	Contact Person:	Carlo Luberto	Phone:	416-528-9377	Contract No.:	15ECS-LU-14SU

Contract No.:	15ECS-LU-14SU								
	<p>Road and Sidewalk Access: In order to complete the work in a safe manner, there will be road and sidewalk restrictions within the construction work zone. Access for emergency vehicles will be maintained at all times.</p> <p>Driveway Access: The contractor will notify you of any temporary restrictions to your driveway access. If your property has two entrances, one entrance will be kept open at all times.</p> <p>Accommodation: Residents that require accommodation must contact the Field Ambassador to arrange for access during the construction period.</p>								
	<p>Traffic Management: Efforts have been made to manage traffic in the area for the safety of workers, road users and residents. Some of these efforts include adding Local Access signs, revising traffic signal times and informing the public of alternate routes during this planned work through twitter. Road users should expect delays and increased traffic on nearby main and side streets.</p> <p>Oak Park Avenue will be reduced to one lane. Detour routes may be placed during the sewer works.</p>								

	<p>Parking: Parking in the active work zone is not permitted due to space requirements for construction equipment and materials. If your parked vehicle affects the construction work, it will be re-located with no charge to the owner. Please contact parking control for the location of your vehicle at 416-808-2222.</p> <p><i>In the event you receive a traffic ticket for on-street parking during this period of construction, please immediately contact the Field Ambassador listed below, so that your tickets can be cancelled.</i></p> <p>Please note that parking tickets cannot be cancelled if vehicles have parked in illegal parking spots such as hydrant violations or no parking zones or if they are submitted to the Construction Inspector later than three days of receipt.</p>
	<p>Garbage & Recycling: Please follow your normal routine. If required, the contractor will move bins to an appropriate location and return them. <i>Please ensure that you label your bins with your address.</i></p>
	<p>Restoration: The construction work area will be restored with sod and/or asphalt where required. Interlocking bricks, flagstone on a granular base, or other similar features that are removed during construction will be replaced. Lawn seeding and/or laying of sod will be done as needed during ideal growing seasons only - in the spring (April to June) and fall (September to October).</p>
<p>Mandatory Disconnection Program: Toronto City Council approved bylaws amending the Toronto Municipal Code to make it mandatory for property owners to disconnect their downspouts, where feasible. The construction work being done in your area will provide improved flood protection, but homeowners must do their part as well. Disconnecting downspouts from the City's sewer system is an important step in helping reduce the risk of both basement flooding and the release of polluted rainwater into our local waterways. To learn more about the program, please visit the City of Toronto website at: www.toronto.ca/downspout.</p>
