Public Meeting #3 Discussion Guide
September 29, 2016

Humber Bay Parks Project – Master Plan Development

Public Meeting #3

Thursday September 29, 2016

3:30 pm – 5:30 pm

6:30 pm – 8:30 pm

Mimico Centennial Library, 47 Station Road

Agenda

Meeting Purpose:

- To provide an overview of what we have heard to date;
- To present an update to the Preliminary Master Plan for Humber Bay Parks;
- To discuss and get feedback on each of the focus areas of the Preliminary Master Plan; and
- To discuss next steps for the Master Plan Development.

Meeting Format:

- This public meeting consists of an open house where participants can visit a series of topic stations at their leisure.
- Project team staff will be available at each station to present the Preliminary Master Plan concepts, listen to your feedback, and answer any questions you may have.
- Participants are encouraged to complete and submit this discussion guide at the end of the open house or by the deadline of October 13, 2016.

Open House Stations:

Check off each station topic as you proceed through the open house:

| # | Station Topic | ✓ |
|---|---|---|
| 1 | About the Project + Public Engagement Process | |
| 2 | A Unique Waterfront Experience / Integrated Park Core | |
| 3 | West Entrance Market (Focus Area 1) | |
| 4 | West Peninsula (Focus Area 2) | |
| 5 | East Entrance Meadow (Focus Area 3) | |
| 6 | East Ponds and Water Channel (Focus Area 4) | |
| 7 | East Park Shoreline (Focus Area 5) | |
| 8 | Habitat Protection and Enhancement | |
| 9 | 10 Key Design Ideas (Share Your Feedback) | |

Discussion Questions

1. West Entrance Market

How well do you think this emerging solution meets the main objectives listed below...

| Objective | Excellent | Adequate | Poor | Why? |
|--|-----------|----------|------|------|
| Establish a rationalized parking and vehicular circulation plan for the park that meets existing and planned parking requirements, boat launch cueing and circulation needs while reducing the extent of paved surfaces where possible. | | | | |
| Provide a sustainable approach to stormwater management and drainage that will benefit the ecology of Humber Bay Park West. | | | | |
| Explore opportunities to expand and enhance the natural environment. | | | | |
| Improve overall connectivity, unifying the overall park, establishing a hierarchy of routes, trails and pathways that meet AODA criteria. The design will involve adjusting existing layout, eliminate areas of conflict between cyclists and pedestrians, and create new connections with the goal of improving pedestrian and cyclist movement and flow while protecting existing habitat. | | | | |
| Identify opportunities for park programming, including redefining existing spaces, introduction of new seating, creation of new lookouts, while protecting sensitive habitats. | | | | |

1. West Entrance Market

Do you have any other comments?

2. West Peninsula

How well do you think this emerging solution meets the main objectives listed below..

| Objective | Excellent | Adequate | Poor | Why? |
|--|-----------|----------|------|------|
| Establish a rationalized parking and vehicular circulation plan for the park that meets existing and planned parking requirements, while reducing the extent of paved surfaces where possible. | | | | |
| Provide a sustainable approach to stormwater management and drainage that will benefit the ecology of Humber Bay Park West. | | | | |
| Explore opportunities to expand and enhance the natural environment. | | | | |

2. West Peninsula

Do you have any other comments?

3. East Entrance Meadow

How well do you think this emerging solution meets the main objectives listed below...

| Objective | Excellent | Adequate | Poor | Why? |
|--|-----------|----------|------|------|
| Establish a rationalized parking and vehicular circulation plan for the park that meets existing and planned parking requirements, while reducing the extent of paved surfaces where possible. | | | | |
| Provide a sustainable approach to stormwater management and drainage that will benefit the ecology of Humber Bay Park East. | | | | |
| Explore opportunities to expand and enhance the natural environment. | | | | |
| Improve overall connectivity, unifying the overall park, establishing a hierarchy of routes, trails and pathways that meet AODA criteria. The design will involve adjusting existing layout, eliminate areas of conflict between cyclists and pedestrians, and create new connections with the goal of improving pedestrian and cyclist movement and flow while protecting existing habitat. | | | | |
| Identify opportunities for park programming, including redefining existing spaces, introduction of new seating, creation of new lookouts, while protecting sensitive habitats. | | | | |
| Integrate architectural improvements, within Humber Bay Park East and West, with adjacent landscape, to meet ecological, regulatory and overall site criteria. | | | | |

3. East Entrance Meadow

Do you have any other comments?

4. East Ponds & Water Channel

How well do you think this emerging solution meets the main objectives listed below...

| Objective | Excellent | Adequate | Poor | Why? |
|--|-----------|----------|------|------|
| Identify opportunities for park programming, including redefining existing spaces, introduction of new seating, creation of new lookouts, while protecting sensitive habitats. | | | | |
| Provide a sustainable approach to stormwater management and drainage that will benefit the ecology of Humber Bay Park East and West. | | | | |
| Create a functional design for the artificial ponds and waterway in Humber Bay Park East that improves their ecological and recreational function while reducing the resources required for maintenance and operation. | | | | |
| Explore opportunities to expand and enhance the natural environment. | | | | |
| Improve overall connectivity, unifying the overall park, establishing a hierarchy of routes, trails and pathways that meet AODA criteria. The design will involve adjusting existing layout, eliminate areas of conflict between cyclists and pedestrians, and create new connections with the goal of improving pedestrian and cyclist movement and flow while protecting existing habitat. | | | | |
| Integrate architectural improvements, within Humber Bay Park East and West, with adjacent landscape, to meet ecological, regulatory and overall site criteria. | | | | |

4. East Ponds & Water Channel

Do you have any other comments?

5. East Park Shoreline

How well do you think this emerging solution meets the main objectives listed below...

| Objective | Excellent | Adequate | Poor | Why? |
|---|-----------|----------|------|------|
| <p>Identify opportunities for park programming, including redefining existing spaces, introduction of new seating, creation of new lookouts, while protecting sensitive habitats.</p> | | | | |
| <p>Explore opportunities to expand and enhance the natural environment.</p> | | | | |
| <p>Improve overall connectivity, unifying the overall park, establishing a hierarchy of routes, trails and pathways that meet AODA criteria. The design will involve adjusting existing layout, eliminate areas of conflict between cyclists and pedestrians, and create new connections with the goal of improving pedestrian and cyclist movement and flow while protecting existing habitat.</p> | | | | |

5. East Park Shoreline

10 Key Design Ideas

Of the 10 key design ideas of the Master Plan listed above, what are your top 5 priorities?

- 1.
- 2.
- 3.
- 4.
- 5.

Other Feedback

Please share any other feedback on the Humber Bay Parks Master Plan

Submit Your Completed Discussion Guide

Please submit your completed Discussion Guide at the end of the Public Open House. Alternatively, you can submit your Discussion Guide by email, mail or fax to either contact listed below **by October 19, 2016**. (Date Extended from October 13th 2016)

The Discussion Guide is also available online at www.toronto.ca/humberbayparks.
