**Urban Design**

From the largest-scale plans down to the smallest site and building details, urban designers strive at every level to create beautiful, vibrant, safe and inclusive places. Our urban designer contributes to the Development Application Review Process in terms of urban design comments, design workshops and OMB evidence and expert witness testimony. Our Section includes a heritage team that plays an important role in preserving Toronto's heritage by advising City Council on matters relating to the Ontario Heritage Act and acting as a professional resource for the community and property owners on the conservation of the City's historic resources. We engage in civic design improvements; including administering the developers percent for public art program and the design review panel. Our Section also includes City Planning's graphic support, mapping, architectural visualization and 3D modelling.
