Public Health's activities are primarily focused on disease prevention, health protection and health promotion and are governed by the Health Protection and Promotion Act. The programs and services provided by Public Health take into account the determinants of health (i.e. income, housing, physical and social environment) and individual risk factors. Mandated services and programs include communicable disease control, family health, chronic disease and injury prevention, and environmental health.

*Note: The Medical Officer of Health reports to City Council through the Board of Health.

Performance & Standards

- Provide community health status information and epidemiological services in support of the planning, monitoring and evaluation of programs including emergency preparedness and response
- Ensure that Public Health programs address the diverse health needs of Toronto, are equitable and accessible, and are based on evidence of need, efficiency and effectiveness
- Coordination of professional practice, training and development activities including academic placements
- Library provide research, information access and document delivery relevant to all areas of evidenced based public health practice, including maintaining an integrated up-to-date collection of journals, monographs and online electronic resources for use by staff
- Develop social marketing campaigns to help improve the health of Toronto
