Local Road Reconstruction and Road Resurfacing South of Barker Avenue

Expected Start Date: Spring 2017

Expected End Date: Summer 2017

**Timeline is subject to change. Future notice to be provided.*

The City of Toronto is planning to complete road work on a number of streets south of Barker Avenue. Our inspection of the road shows that it needs reconstruction and sections of damaged sidewalk need to be replaced to bring them to a state of good repair.

The City will resurface the road on the following streets (see map):

- Gibson Avenue,
- Bradshaw Avenue,
- Hentob Court,
- Jason Road, and;
- Sims Crescent,

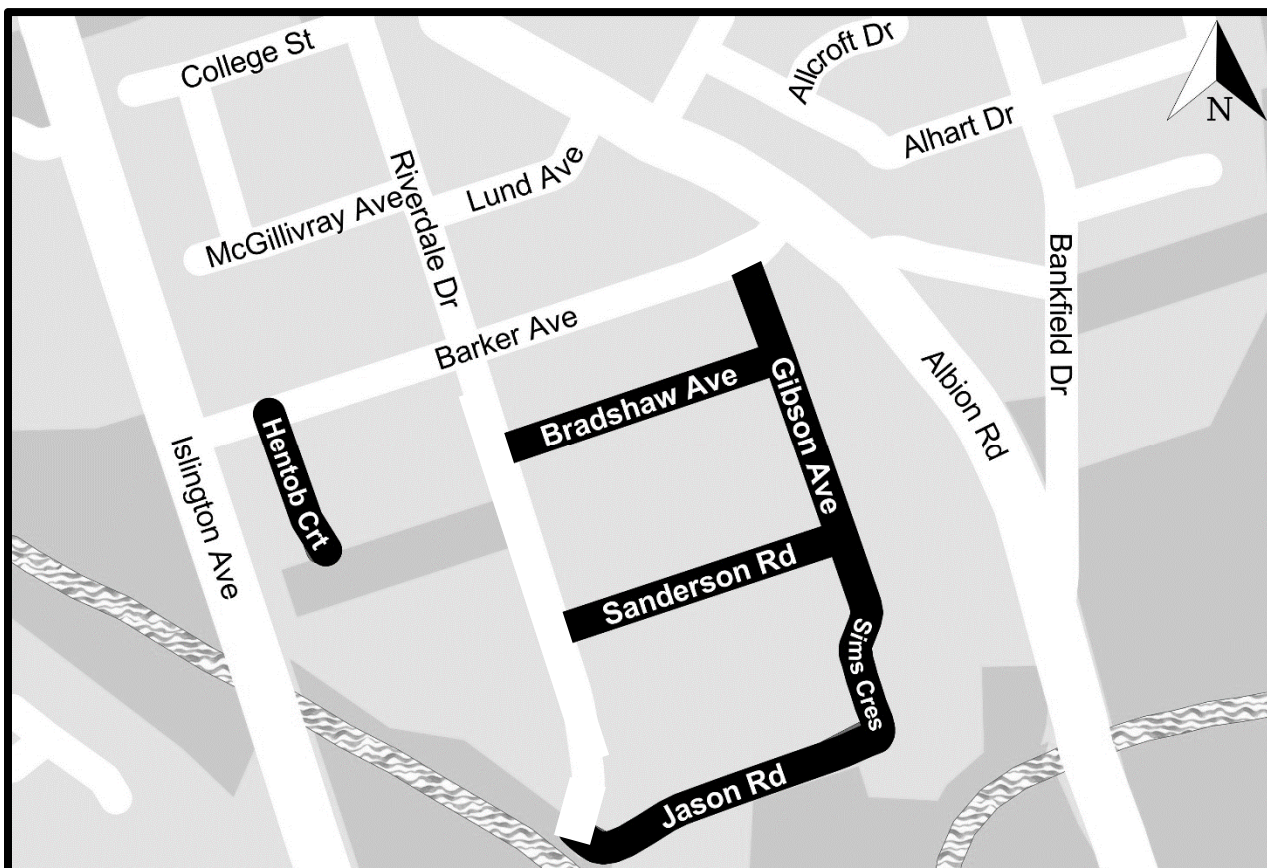

On Sanderson Road, the City will reconstruct the road and replace the City-owned portion of substandard water services. The water service is the underground pipe that brings water to your water meter and is owned by you and by the City. The part you own is from your house to the end of your property, the part the City owns is from the end of your property to the watermain.

This work is part of the Council-approved 2017 Capital Works Program to renew aging city roads, sidewalk and improve water services for current and future needs.

IMPORTANT INFORMATION ABOUT LEAD WATER SERVICES

If you live in on **Sanderson Road** in a house that was built before the mid-1950s, your water service may be made of lead. Please read the attached fact sheet with important information about the risks of lead in drinking water, especially if someone in your house is pregnant, there are children under six years old, or there is an infant drinking formula made from tap water.

MAP OF WORK AREA

WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark sidewalks and curbs requiring replacement and the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- Work in the boulevard in front of homes and commercial properties is expected. This work includes removing and replacing driveways, municipal sidewalks and grassed boulevards, where necessary.
- Property owners should remove items located within City property limits (boulevard), such as landscaping and or decorative objects before work starts. If you have a sprinkler system within the boulevard, please contact the Project Manager listed below.

	<p>Accessible Accommodation: Residents who require accommodation (level entry, longer notice, etc) must contact the Project Manager to arrange for access during the construction period.</p>
<h3>Properties on Sanderson Road</h3>	
	<p>Substandard Water Service Replacement: Please read the attached fact sheet as it contains important information about lead in drinking water and water service replacement. Find out if your water service is lead – a licensed plumber can help you with this. If it is lead, the City of Toronto encourages you to replace it. We recommend you obtain several quotes and you can contact the City's contractor for one of your quotes. Approximately two weeks prior to construction, you will receive a "Construction Notice" with the name and phone number of the City contractor. Learn more at toronto.ca/leadpipes</p>
	<p>Access to your Home: The City-hired contractor may need access to your home to complete a pre-construction survey. Affected properties will receive a pre-construction survey request to schedule a time to complete the survey.</p>
