Condition Survey / Inspection

Dear Resident,

The City of Toronto is preparing to replace the watermain and the City-owned portion of substandard water services on Old Burnhamthorpe Road from Elmcrest Road easterly to Burnhamthorpe Road, on Norbert Crescent and Melbert Road (see attached Construction Notice for additional information),

Due to the nature of this work and possibility of vibration, the City's Contractor JV 2489960 Ontario Inc. has hired OZA Inspection Ltd. to complete pre-construction surveys of all properties within 30 metres of the construction area.

Participation in the survey is voluntary. The benefit to homeowners who participate is that pre-construction survey results may be of use to substantiate claims for damage caused by City construction. The benefit to taxpayers in the City of Toronto is the surveys help protect against fraudulent claims against the City.

OZA Inspection Ltd. will follow up with a request to set up an appointment. All inspection staff will be wearing photo identification and carrying photographic equipment during their work. The information gathered during this survey will be kept confidential.

If you have questions about the upcoming work or these inspections, please contact us and quote **Contract 17ECS-TI-102LR**.
