Road Resurfacing on Renforth Drive from Rathburn Road to Gentian Drive and from south of Convair Drive to Carlingview Drive

Expected Start Date: Summer 2017

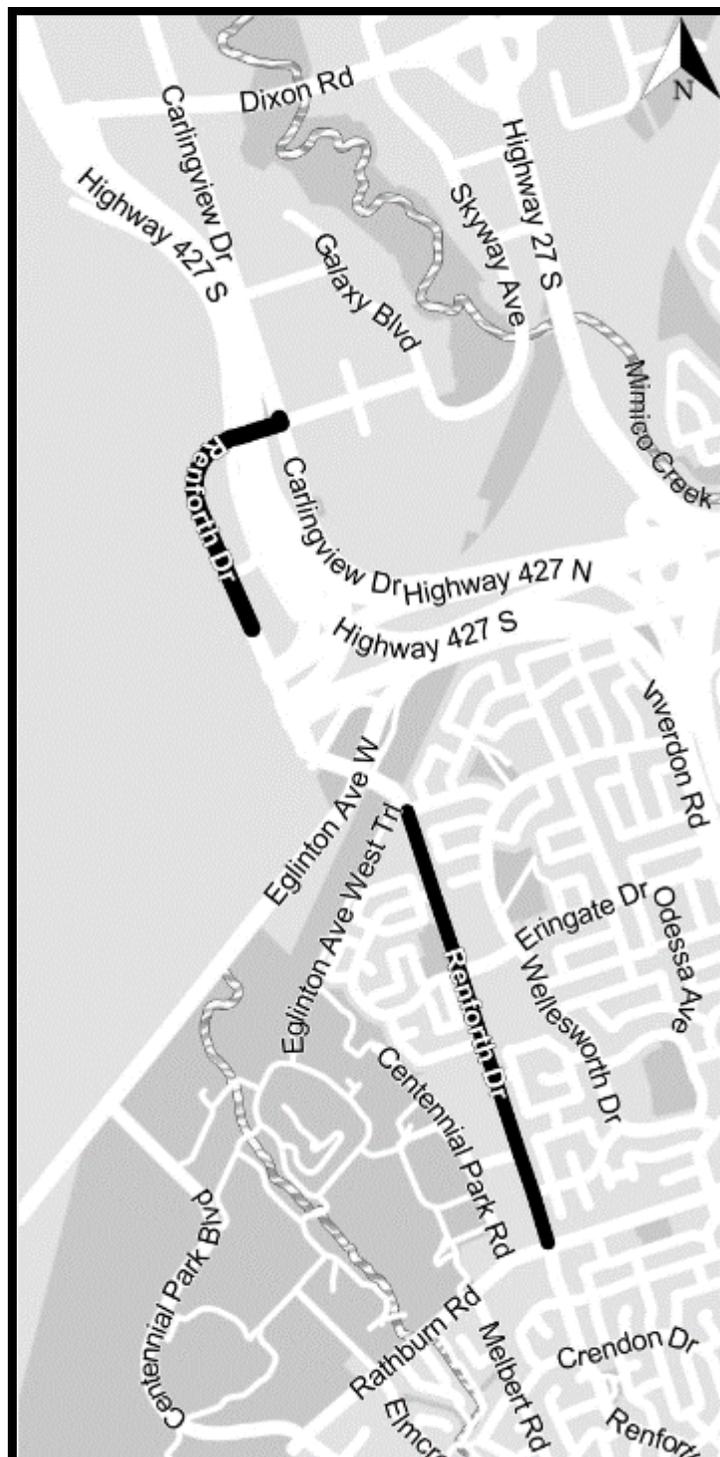

Expected End Date: Fall 2017

**Timeline is subject to change. Future notice to be provided.*

The City of Toronto is planning to resurface the road on Renforth Drive from Rathburn Road to Gentian Drive, and from 125 m south of Convair Drive to Carlingview Drive. Our inspection of the road shows that it needs repaving and sections of damaged curb and sidewalk need to be replaced to bring them to a state of good repair. This project will also involve adding some painted cycling lanes.

This work is part of the Council-approved 2017 Capital Works Program to renew aging city roads and sidewalk for current and future needs.

MAP OF WORK AREA

WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark sidewalks and curbs requiring replacement and the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- Work in the boulevard in front of homes and commercial properties is expected. This work includes removing and replacing driveways, municipal sidewalks and grassed boulevards, where necessary.

Property owners should remove items located within City property limits (boulevard), such as landscaping and or decorative objects before work starts. If you have a sprinkler system within the boulevard, please contact the Project Manager listed below.

	<p>Accessible Accommodation: Residents who require accommodation (level entry, longer notice, etc.) must contact the Project Manager to arrange for access during the construction period.</p>

BICYCLE LANES

As part of this road resurfacing project, Transportation Services is providing more space at the curb lane for cycling with the installation of painted bicycle lanes. The existing two traffic lanes in each direction will remain.

These cycling improvements on Renforth Drive will connect to and extend the existing bicycle lanes south of Rathburn Road, and connect to the existing and planned multi-use trail at Eglinton Avenue West.

A public consultation event was held on March 21st, 2017. Overall community response has been accepting and supportive of the bike lanes. View more information about these bike lanes at toronto.ca/cycling/renforth
