Sewer Replacement on Weston Road from north of Lambton Avenue to Eglinton Avenue West

Expected Start Date: May 2016

Expected End Date: September 2016

**Timeline is subject to change. Future notice to be provided.*

The City of Toronto is planning to replace the combined sewer and the City-owned portion of substandard water services and sanitary sewer laterals on Weston Road from 81 meters north of Lambton Avenue to Eglinton Avenue West.

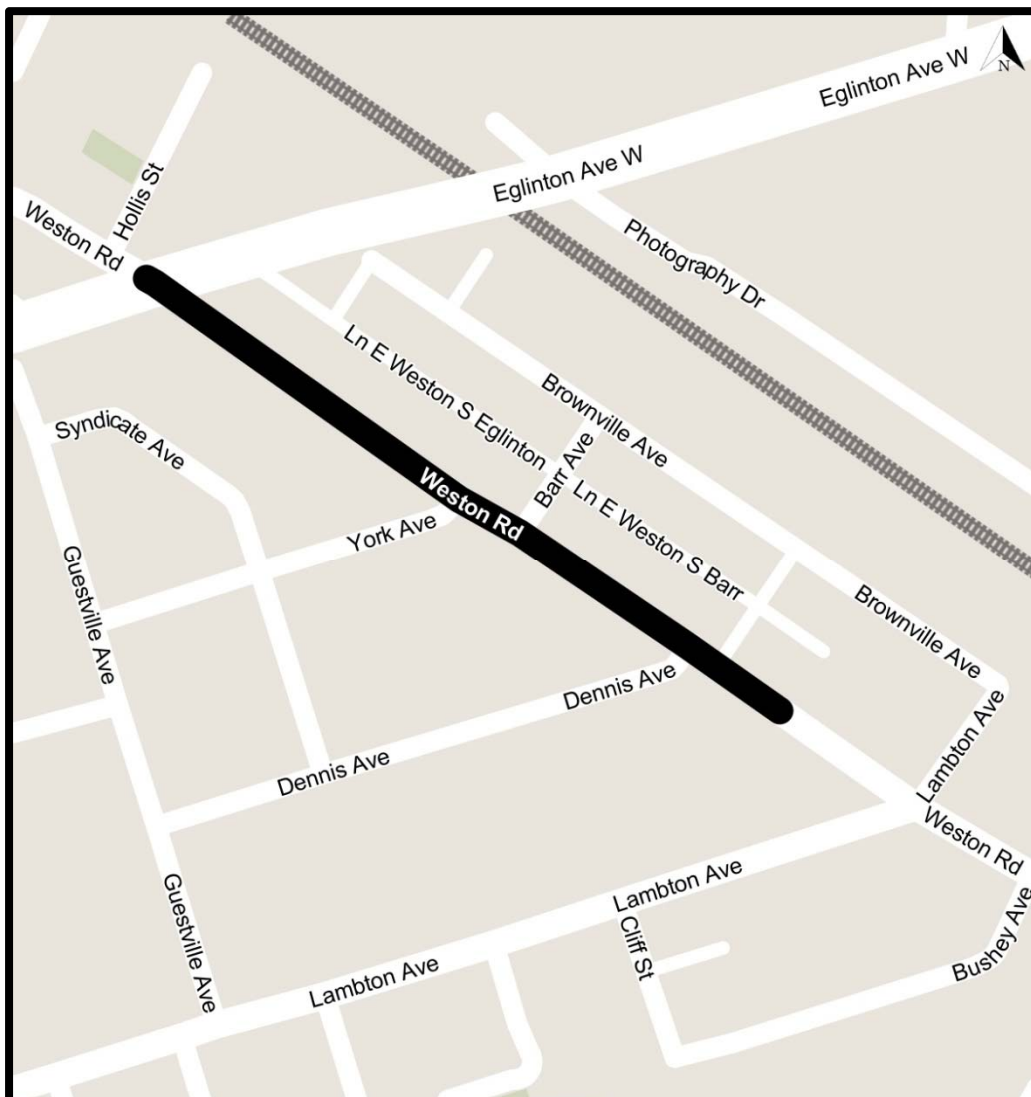

The sanitary service lateral is the pipe connecting your home's sewage plumbing to the City's sewer, the water service is an underground pipe that brings water to your home; both of these pipes are owned by you and by the City. The part that you own is from your house to the end of your property. The City owns the section from the sewer and watermain to your property line.

This project is part of the Council-approved 2016 Capital Works Program to renew our aging infrastructure, improve sewer flow and reduce the risk of sewer backups and overflows

IMPORTANT INFORMATION ABOUT LEAD WATER SERVICES

If you live in a house that was built before the mid-1950s, your water service may be made of lead. Please read the attached fact sheet with important information about the risks of lead in drinking water, especially if someone in your house is pregnant, there are children under six years old, or there is an infant drinking formula made using tap water.

MAP OF WORK AREA

WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark sidewalks and curbs requiring replacement and the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- Work in the boulevard in front of homes and commercial properties is expected. This work includes removing and replacing driveways, municipal sidewalks and grassed boulevards, where necessary.
- Property owners should remove items located within City property limits (boulevard), such as landscaping and or decorative objects before work starts. If you have a sprinkler system within the boulevard, please contact the Field Ambassador listed below.

	<p>Substandard Water Service Replacement: Please read the attached fact sheet as it contains important information about lead in drinking water and water service replacement. Find out if your water service is lead – a licensed plumber can help you with this. If it is lead, the City of Toronto encourages you to replace it. We recommend you obtain several quotes and you can contact the City's contractor for one of your quotes. Approximately two weeks prior to construction, you will receive a "Construction Notice" with the name and phone number of the City contractor. Learn more at toronto.ca/leadpipes</p>
	<p>Accessible Accommodation: Residents who require accommodation (level entry, longer notice, etc) must contact the Field Ambassador to arrange for access during the construction period.</p>

NEED MORE INFORMATION?
