## Watermain Replacement on Castlefield Avenue from Kincort Street to Dufferin Street

**Contract: 16ECS-LU-04SU**

**Winter Break Start: December 23, 2016**

**Work resumes: March 27, 2017**

**Expected Construction End Date: June 30, 2017**

*\*Timeline is subject to change.*

This notice provides an update to the watermain replacement work on Castlefield Avenue. Work will now re-start on **Monday, March 27**. We know this project has had an impact along Castlefield Avenue. We appreciate your patience with the dust, noise and other inconveniences.

Before work stopped in the winter, the Contractor installed some watermain pipe and temporarily restored the road surface.

### IMPORTANT INFORMATION ABOUT LEAD WATER SERVICES

If you live in a house or own a property on Castlefield Avenue between Kincort Street and Dufferin Street that was built before the mid-1950s, your water service may be made of lead. Please read the attached fact sheet with important information about the risks of lead in drinking water, especially if someone in your house is pregnant, there are children under six years old, or there is an infant drinking formula made using tap water.

### MAP OF WORK AREA

### REMAINING WORK

The Contractor will now complete the following work:

- Complete disinfecting, and testing the new watermain;
- Replace City-owned water service pipes that do not meet City standards from the watermain to the private property line
- Install sections of sidewalk along the south side of Castlefield Ave

### WHAT TO EXPECT DURING CONSTRUCTION

- You may experience dust, noise and other inconveniences. The City will make efforts to reduce the impacts. We appreciate your patience.
- Property owners should remove items located within City property limits (boulevard), such as landscaping and / or decorative objects. If you have a sprinkler system within the boulevard, please contact the Field Ambassador.
- The City will not be responsible for damage to any privately owned items on City property.

**Work Hours:** Work will take place from 7:00 am to 7:00 pm., Monday to Saturday, with work after hours and on Sundays as required.

	<p><b>Water Service Disruptions:</b> From time-to-time, the water supply to your property will be shut-off to complete construction; the contractor will provide at least 24-hour advance notice. Throughout the work, it is recommended that you temporarily disconnect any water treatment systems (i.e. softeners or filters), water-cooled air conditioners or similar plumbing fixtures. Automatic lawn sprinkler systems may also be affected, therefore, you may need to water manually. In the event you did not receive advanced notice, an <b>emergency water shut off</b> could have been necessary.</p>
	<p><b>Substandard Water Service Replacement:</b> Please take the time to read the attached fact sheet carefully as it contains important information on lead in drinking water and how to prepare for replacement.</p>
	<p><b>Road and Sidewalk Access:</b> In order to complete the work in a safe manner, there will be road and sidewalk restrictions within the construction work zone. Access for emergency vehicles will be maintained at all times.</p> <p><b>Driveway Access:</b> The contractor will notify you of any temporary restrictions to your driveway access. If your property has two entrances, one entrance will be kept open at all times.</p>
	<p><b>Traffic Management:</b> Efforts have been made to manage traffic in the area for the safety of workers, road users and residents. Some of these efforts include adding Local Access signs, revising traffic signal times. Road users should expect delays and increased traffic on nearby main and side streets.</p> <p><b>Portions of traffic on Castlefield Avenue will be reduced to one lane.</b></p>
	<p><b>Parking:</b> Parking in the active work zone is not permitted due to space requirements for construction equipment and materials. If your parked vehicle affects the construction work, it will be re-located with no charge to the owner. If your vehicle is moved, please contact parking control for its location at <b>416-808-2222</b>.</p>
	<p><b>Garbage &amp; Recycling:</b> Please follow your normal routine. If required, the contractor will move bins to an appropriate location and return them. <b>Please ensure that you label your bins with your address.</b></p>
	<p><b>Restoration:</b> The construction work area will be restored with sod and/or asphalt where required. Interlocking bricks, flagstone on a granular base, or other similar features that are removed from public and private property during construction will be replaced.</p>
