Garbage & Recycling Pickup During College Street Promenade BIA Construction

Dear College Street Resident / Business Owner:

As part of the construction on your street, The City's contractor Four Seasons Construction is responsible for ensuring your garbage, recycling and green bins are picked up according to your regular schedule.

First: Label your bins with the correct address

**Throughout the construction project,
every Thursday by 4:30 p.m.:**

**Leave bins for collection in front of your property or if you can
bring the bins to the corner nearest your property before the
Thursday night pick up that would be helpful.**

The Contractor will move bins to each corner so that waste can be picked up according to schedule. The Contractor will then return bins in front of your address on Friday mornings.

If you missed pick up or leaving your bins out, please contact the inspector on this project, the inspector will then call 311 to arrange for pick up.

If you have questions, please contact us.
