Watermain Replacement & Road Reconstruction on Gerrard Street East and West from Yonge Street to Sherbourne Street and from University Avenue to Elizabeth Street

Contract: [16ECS-TI-15SP]
Start Date: April 18, 2016
End Date: October 28, 2016
**Timeline is subject to change.*

This notice provides an update on construction activities to be carried out on Gerrard St. The work will include watermain replacement and road reconstruction.

From **Sunday May 29 to Wednesday June 1 (from 6:00 P.M to 5:00 A.M)**, the contractor will be working to complete watermain installation along Gerrard Street East through the Jarvis street intersection. This work is necessary to be done at nights in order to mitigate traffic disruption during the day on Jarvis Street.

As a result there will be some lane restrictions on Jarvis Street: for each night of work a minimum of 2 lanes will be occupied on Jarvis. Therefore a minimum of 1 lane in each direction will always be maintained.

Water service connection works are also planned between **June 6-10 at night from Yonge Street to Church Street** as this is the time most suitable to residents and businesses.
