Intersection Resurfacing at Warden Avenue at Sheppard Avenue East

Expected Start Date: Spring 2017

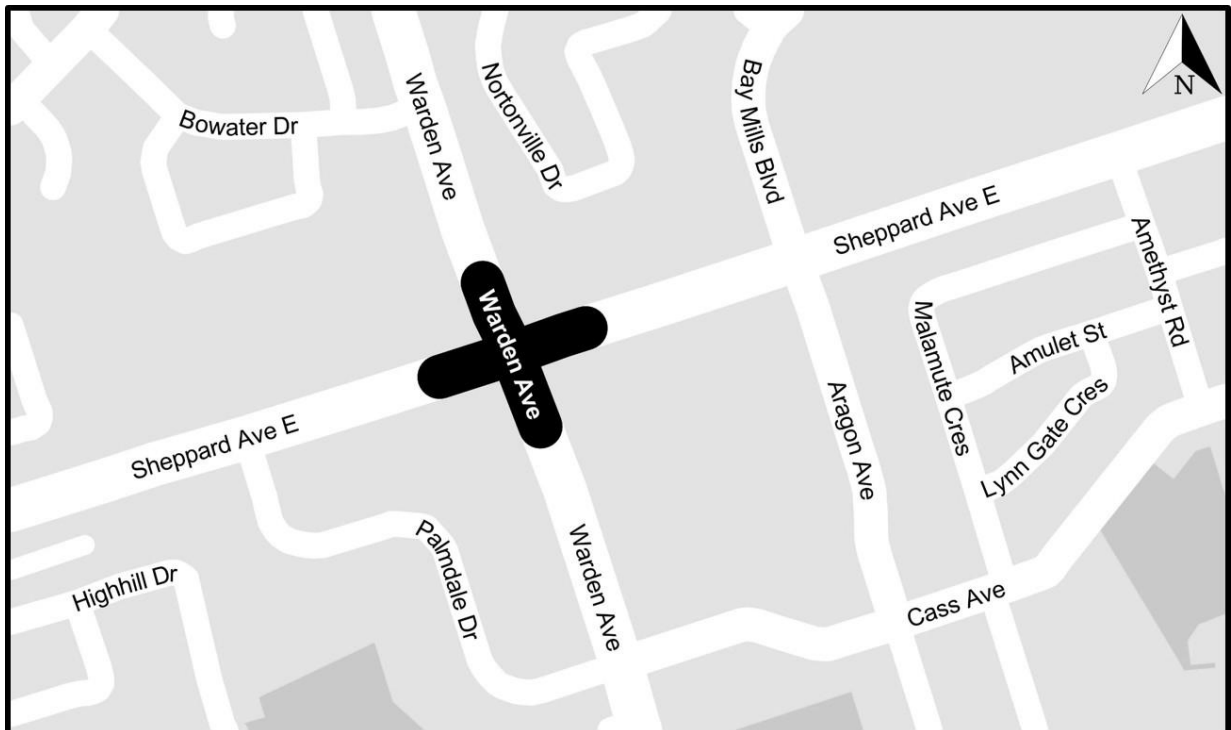

Expected End Date: Spring 2017

**Timeline is subject to change. Future notice to be provided.*

The City of Toronto is planning to resurface the intersection of Warden Avenue and Sheppard Avenue East. Our inspection of the road shows that it needs repaving and sections of damaged curb and sidewalk need to be replaced to bring them to a state of good repair.

This project is part of the Council-approved 2017 Capital Works Program to improve intersection safety and renew our aging infrastructure.

MAP OF WORK AREA

WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark sidewalks and curbs requiring replacement and the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.

- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- Work in the boulevard in front of homes and commercial properties is expected. This work includes removing and replacing driveways, municipal sidewalks and grassed boulevards, where necessary.
- Property owners should remove items located within City property limits (boulevard), such as landscaping and or decorative objects before work starts. If you have a sprinkler system within the boulevard, please contact the Project Manager listed below.

Accessible Accommodation: Residents who require accommodation (level entry, longer notice, etc.) must contact the **Project Manager** to arrange for access during the construction period.

MORE INFORMATION:

If you have questions about the upcoming work, please contact us.
